

## Business Computing Hardware

Computer hardware always forms the core of any IT requirement. Although we are solution oriented company with focus on core IT Services, like help desk support, we do have a large VAR hardware business from leading brands like Hewlett Packard, Fujitsu-Siemens, DTK, Compaq, IBM and others. We go according to client requirements. We are vendor independent. We do not assemble PC's, unless there is a large specific requirement or high-end graphic Systems

Our clientele, some going back couple of decades, supports us with the trust that is normally kept for in-house IT services. We have grown as they have. Many have grown from 5 users to more than 100.

A choice of multiple vendors enables us to provide the maximum possible options at a single point of time. Like always, we believe in giving products that are current in technology, but at the same time with a very price/performance ratio that clearly supports the client's budget figures.

We provide the entire range of standalone workstations, networks workstations, and workstations for CAD and other high utility engineering applications.

### Personal Computers, Workstations and Servers

- Dell, Compaq, IBM, Fujitsu-Siemens (FSC) Servers
- Dell, IBM, DTK, HP & FSC Intel Based PC & Workstations
- Notebooks from Dell, HP, IBM, Toshiba & FSC
- LaCie NAS storage and personal storage devices

### High End Graphics, CAD & Gaming Systems

In 2007, we activity started marketing high-end workstations, primarily supporting the AMD processors. We have high end made to order Dual Core AMD Systems or Quad Core Intel Processors. Some of these models are currently the fastest PC's in the world. These high quality systems are manufactured according to requested configurations. We also carry (on special orders) high-end gaming systems from DTK.

### Networking Hardware

- 10/100 & Gigabit Switches & Routers from Cisco, D-Link & 3COM
- Rack Mount Cabinets from Cheetah & Kudu
- APC On-line Power Management solutions - UPS & Associated
- Firewall & Security equipment from Cisco & VistaWiz
